 **PRINCETON UNIVERSITY**

**Daniel N. Robinson** is a member of the Faculty of Philosophy, Oxford University, where he has taught since 1991. He is also Distinguished Professor, Emeritus, Georgetown University, on whose faculty he served for over thirty years. Over the years, he has been Visiting Professor at a number of institutions including the Folger Shakespeare Institute, Princeton University, and Columbia University. His scholarship covers an unusually wide range of disciplines, including the brain sciences, philosophy and history of science, moral philosophy, philosophy of law, philosophy of mind, and intellectual history. His most recent book, *How Is Nature Possible: The Project of Kant's First Critique* (2012), is available from Continuum Publishing. In 2001, Professor Robinson received the Lifetime Achievement Award from the Division of the History of Psychology of the American Psychological Association and, in the same year, the Distinguished Contribution Award from the APA's Division of Theoretical and Philosophical Psychology. In 2011, he was selected for the Joseph B. Gittler Award for significant contributions to the philosophical foundations of Psychology. He received his B.A. from Colgate University and his Ph.D. in Neuropsychology from the City University of New York.
